SUCCESSFUL FIRST INSTALLATIONS OF BOMILL INSIGHT

Since the launch, in January, of its latest generation of grain sorting equipment BoMill InSight™, BoMill has already been working on three installations projects. With two machines now in operation and a third one scheduled for later this year, all projects are on track for success and customers are pleased with the outcome.

"We are in a crucial phase for the commercial development of BoMill InSight. I am delighted with the success of these first installations and the positive feedback we get from our customers, both on the equipment and the service we provide", commented Andreas Jeppsson, CEO of BoMill.

Brief status summary on BoMill InSight™ installation projects:

- **Gl. Buurholt (Installation in Denmark)**

On April 1, 2022, BoMill received an order from the leading Danish mobile grain processing company Gl. Buurholt ([BoMill receives order of SEK 2.8 million from mobile grain processor Gl. Buurholt - BoMill](#)). In June 2023, the installation of BoMill InSight™ on one of Gl. Buurholt's trailers was completed. After commissioning and training, the customer has now taken full control of the operation of the equipment. To build awareness towards farmers, Gl. Buurholt has started promoting the technology through various events, media, and collaboration with Danish institutes. BoMill supports these initiatives.

- **Aurora Mühle Hamburg - part of GoodMills Group (Installation in Germany)**

On December 20, 2022, BoMill announced the order from the German mill Aurora Mühle Hamburg GmbH, part of GoodMills Group, the largest milling group in Europe ([BoMill receives order of 2.6 MSEK from GoodMills - BoMill](#)). The installation of BoMill InSight™ was finalized in June 2023. The great collaboration and support from the customer have made the project a success. Following an initial training phase on the equipment, BoMill InSight™ is now fully operated by the customer. As part of BoMill's customer excellence strategy, the BoMill team is in regular contact with GoodMills to follow up progress.

- **Global grain processor (Installation in Latin America)**

On May 23, 2023 an agreement was announced ([BoMill signs agreement of 1.0MSEK with global grain processor - BoMill](#)) for the supply of BoMill InSight™ to a leading multinational grain processing company. The installation of the equipment, in a grain silo in Latin America,

is part of a project evaluating the BoMill technology, at the industrial scale, to support further investments in the future. The BoMill team is currently working on the production of the equipment, liaising with the customer for a delivery according to the planned schedule.
