BOMILL AT AGRITECHNICA 2025

BoMill AB is pleased to announce its participation at Agritechnica, the world's leading trade fair for agricultural machinery, taking place November 9-15 in Hannover, Germany. The company will exhibit at the Nordic Innovation Pavilion (Hall 24, Booth F16).

With about 2,800 exhibitors and over 470,000 visitors from 149 countries at its latest edition, Agritechnica is the premier global platform for showcasing innovations and setting the agenda for the future of agricultural technology and crop production.

In collaboration with Agtech Sweden, Linköping University and Elmia Lantbruk, BoMill will join companies from Finland, Denmark, Norway, and Sweden in the **Nordic Innovation Pavilion (Hall 24, Booth F16)**, highlighting how Nordic cooperation is driving innovation and sustainability within agriculture.

At the booth, BoMill will showcase BoMill InSight™, its cutting-edge grain sorting solution that looks inside each kernel in a batch of grain, and precisely sort them, based on protein content. This enables grain producers and processors to target premium qualities and recover downgraded batches to maximize grain value while improving efficiency and sustainability across the value chain.

BoMill warmly welcomes visitors to the booth, to meet us and explore how precision sorting with BoMill InSight™ can add value to their grain operations.

For more information about BoMill, please contact:

Andreas Jeppsson, CEO - Phone: +46 (0)727 00 11 82 - **E-mail:** andreas.jeppsson@bomill.com

BoMill has developed and markets patented technology for sorting grain on a commercial scale, based on the internal qualities of each kernel. The method is the only one of its kind on the market today and is estimated to have the potential to become a Golden Standard within the industry.

The company is listed on Nasdaq Stockholm First North Growth Market under the ticker: BOMILL.
