

## FOR IMMEDIATE RELEASE:

### **The Swedish company BoMill AB expands into Great Britain and Ireland with McArthur Agriculture Ltd.**

The grain quality sorting company BoMill AB grows their distributor network by signing an agreement with McArthur Agriculture Ltd. with operations in the Great Britain and Ireland.

“With McArthur Agriculture as our Distributor for Great Britain and Ireland we will have a strong partner” says Per Söderström, Marketing Director BoMill AB. “McArthur Agriculture’s market presence in the grain business and know-how is important for our expansion in these markets.”

McArthur Agriculture Managing Director, John McArthur, says “BoMill have developed a truly unique grain sorting technique, it will change the way grain is processed around the world. We look forward to partnering with British and Irish grain marketing and processing companies, helping them to unlock the huge potential this new technology offers.”

**Meet us and learn more at “Cereals – The Arable event” in Chrishall Grange Duxford, Cambridgeshire UK, June 13-14<sup>th</sup>.**

#### **About**

BoMill AB, based in Malmö Sweden, is a company with unique expertise in quality sorting of wheat, durum wheat, malt barley, spelt and oats based on individual sorting of each individual kernel. Each kernel’s chemical structure can be separated into different fractions based on protein, fusarium (fungal attack / DON), vitrosity (hardness), falling number and seed quality. BoMill sells sorting equipment and know-how throughout Europe and North America, using its own sales organization and distributors.
